

FARALLONES SANCTUARY NATURALIST COURSE

Saturdays, February 8 - March 28, 9:30 am - 12:30 pm

Are you interested in discovering the diverse and abundant marine life in Greater Farallones National Marine Sanctuary?

Join sanctuary staff on field explorations, in citizen science initiatives, and to learn about the latest marine research. Hands-on dissections, plankton trawling, and wildlife investigations are all part of the curriculum. Delve into the world of oceanography and food webs, sanctuary habitats from the deep sea to the rocky shore, marine mammals, sharks and other fish, invertebrates, seabirds, and shorebirds. Earn your Sanctuary Naturalist Course certificate by attending all sessions and volunteering a minimum of 15 hours.

Registration required: jalupay@farallones.org, Adults only, \$300 for the Full 30-Hour Course

2020 Class Schedule: all classes in San Francisco's Presidio except field trips

2/8 Intro to Sanctuary Habitats • 2/15 Sandy Beach • 2/22 Bays & Estuaries Field Trip (10am-3pm)
